Pooh Toy Recalled

The Army and Air Force Exchange Service in conjunction with the U.S. Consumer Product Safety Commission and Tiger Electronics Ltd. is voluntarily recalling about 202,000 Pooh Poppin' Pianos. The green leafy top section of the carrot-shaped microphone attached to the piano toy can break off, posing a choking hazard to young children. Only pianos with serial numbers starting with "WT" or "CO15D" are part of this program. The serial number is printed in two places, on a small label located inside the battery compartment and on the bottom of the retail package. Customers may return the product to AAFES for a refund or exchange.

Buying a Car on Economy

Are you buying a used car on the economy? Stop! You need to have that vehicle totally de-registered from the German system before registering with USAREUR. Call Vehicle Registry for more details at 4312-833/civ. 07031-15-833.

Protect Your Children

Parents: Protect your children by taking a couple of minutes to teach them the five school bus safety rules. (1) Be on time -- walk, don't run to the bus stop. (2) Wait for the bus three steps back from the curb. (3) Take your seat on the bus and stay in it. (4) Get off the bus, go three steps away and wait for the bus to leave. (5) Never go in front or behind the bus.

Your children's safety is important! Remember that in Europe, traffic doesn't stop for loading or unloading school buses. Crossing the street can be dangerous.

Children in kindergarten through grade two are most vulnerable to accidents going to and from school and while waiting at the bus stops. Parents should take extra time to supervise and keep them safe. If possible, take your children to the bus stop, wait with them and meet them when they return.
